

Static Line Tension Monitor

These Units are fully compliant with the new ATEX standard for Hazardous Areas.

All Units are set up and calibration on a Grade 0.5 NAMAS Traceable test rig.

This unit is an addition to our range of load cells, which are well proven with many units in operation within the worldwide oil industry.

- *Lightweight*
- *High Accuracy*
- *Suitable for mounting in Hazardous Areas (Units fully certified to a new ATEX Standard)*
- *Wide range of rope sizes (7/8" to 2" Diameter)*
- *Low maintenance*
- *Simple Calibration*
- *Load detection using reliable strain gauge technology*
- *Calibration independent of rope size*
