JET AIR OVEN (JA6)

The JA Series from DOYON is known worldwide for its unique and patented JET AIR SYSTEM (the air moves in one direction for 2.5 minutes, stops for 25 seconds than moves the other way for 2.5 minutes) resulting in a gentle velocity air flow for exceptional baking results. This system will help you bake faster and more evenly. Our competitors ovens allow the air to move in one direction only.

DOYON's outstanding uniform steam injection system includes an electronic timer which will give you a precise mist everytime for a better quality product (crusty breads, bagels, french baguettes, etc.). This superior steam system will allow inexperienced employees to produce quality products with a minimum of training.

Versatility:

Bread, rolls, buns, crusty breads, pastries, muffins, cakes, pies, bagels, croissants, sours and ryes, bacon, game hens, chicken, turkey, multimeal prep, bulk vegetables/casseroles, slow cook/retherm.
