HIGH PERFORMANCE AIR POWERED CLIPPING MACHINES

Increase production efficiency by quickly and safely closing packaged, poly bagged or netted products and chubs with a Poly-Clip® air powered clipping machine from Koch Equipment.

We offer two models of air operated single clipping machines to choose from:

EZ 90 Val-U-Clipper – For closing small packages and poly bagged or netted products such as whole birds, fruits, vegetables and nuts. Includes manual cutoff knife and shut off valve.

EZ 7080 Big Mouth

Clipper – Features an open gate style for closing chubs of sausage, cheese and formed meats. Includes pneumatic knife and shut off valve.

Both units require 90 p.s.i. compressed air supply and may be positioned to suit the needs of your processing and packaging line.

Air filter/regulator/lubricator combo unit and clips are also required to operate the machine.
